Instructions for Ordering Washington Sheep Quality Assurance Tags

1. For the purposes of this program blackface breeds are Suffolk and Hampshire and their crossbreeds. Black variants from other breeds are not to be considered “blackface” sheep. Likewise Shropshires, for example, are not a blackface breed unless they are declared by the owner to be crossbred with Suffolk or Hampshire breeds. Scrapie is the target of this program not just black sheep.
2. The new Washington Administrative Code (WAC) 16-89 effective May 16, 1999 requires that all blackface breeding stock over one year of age be identified with a flock number. Blackface breeding animals of any age must be identified by flock number before showing, sale, purchase or other movement. Enforcement will be phased in over the next year. This is a program to help control Scrapie, not create an enforcement bureaucracy. The requirement will first be enforced at shows and sales.
3. Tattoos and electronic implant devices may be used but the flock still needs a flock number. If you are not using the tags, please submit this form with the information in the left upper corner of the form filled in and write the type of ID you are to be using in the space below the block of information. Mail the form to the address indicated on the form. We will assign a state flock number and return a copy of the form to you.
4. If you are ordering tags, fill out the necessary information on this form. Note that prices are different for the two types of tags. Please mail to the address on the form. This is a special post office box from which only Animal Health personnel have access to your information. All other addresses for Department of Agriculture allow for the Operations Division to open all mail. Send NO CASH with your order. Please mark “SCRAPIE TAGS” or “SHEEP TAGS” on the outside of your envelope in the lower left-hand corner.
5. All first time orders will have the flock number assigned by this office. For subsequent orders you should enter your flock number. Please do not call our office to obtain your flock number as that would overload our office personnel. However, if you have questions on the program, we will be glad to field your phone call. If you get the electronic message service please leave your name and phone number and we will get back to you just as soon as possible. Do not order directly from Allflex as it will only delay your order.
6. If you order pins or taggers, check the appropriate box(es) and be sure to enter the subtotal for the number of pins and/or taggers that you order.
7. If you are a 4-H, FFA or other organized youth group, the state will pay for your first twenty-five (25) tags once a year for three years if you order on the **YOUTH** form. If you need additional tags in a year, order the additional tags on this form. If you need pins or a tagger please also order them on this form.
8. Leaders of 4-H, FFA or other youth programs may order up to five pins, one tagger or both items for use on project sheep as a one-time state purchase for you. Please use the **YOUTH** form for such orders.
9. Indicate by checking the box which type of tag you wish to order. Jr. Bangle Tags or Button tags are available. We feel that the Button tags will retain in the sheep ears the best but the choice is yours. ***Please note that the two types are priced differently.***
